

Version 22.01.03

# Customer Update Notices

Volume C1 Issue 12 July 1, 2008

## - New DigiScribe Version Available - "Video Transcription Added"

---

A software and documentation update, version 22.01.03 is available for DigiScribe. It is available at "[www.DigiTelSoftware.com](http://www.DigiTelSoftware.com)" as a Full Installation (if it's not already installed) and as an Upgrade Installation (if it's already installed). A new Manual is also available.

---

### The updates in this version include:

1. A new feature enables the transcription of video files including MOV, AVI, MP4, and WMV.

The video is shown in a small window that can be enlarged. As well, freeze-frame snapshots (as .bmp bitmap files) can be taken.

The video display can help the transcriptionist determine who is speaking when a video includes multiple persons speaking. The freeze-frame snapshots that the user may take can be included in the transcribed document.

*There is a growing need for transcription of all types of video, including judicial hearings, law enforcement interrogations and investigations, business meetings and conferences, interviews, televised shows, real-estate listings, and insurance investigations.*

**To transcribe movie files, place them into any of DigiScribe's Pool Paths, such as the "c:\Apptec\DigiScribe\Files\InQueue" or "c:\Apptec\DigiTel\Dictation Files" default paths.**

2. Fixed that a selected file may not play past 00:01:40 when the Audio Preview mode is set to 0.

Additional details are available in the "Read Me" link at "[www.DigiTelSoftware.com/Software.htm](http://www.DigiTelSoftware.com/Software.htm)".

Previous Update Notices are available at "[www.DigiTelSoftware.com/Customer Notices.htm](http://www.DigiTelSoftware.com/Customer Notices.htm)".

Upgrade assistance is available from your place of purchase, or email [Info@DigiTelSoftware.com](mailto:Info@DigiTelSoftware.com).
