

Version 22.01.01

Customer Update Notices

Volume C1 Issue 2 Feb. 22, 2008

- New DigiScribe Version Available -

A software and documentation update, version 22.01.01 is available for DigiScribe. It is available at "www.DigiTelSoftware.com" as a Full Installation (if it's not already installed) and as an Upgrade Installation (if it's already installed). A new manual and quick-start guide are also available.

The updates in this version include:

1. The "Complete" key is now available as soon as you begin transcribing a file.
2. The FTP download process can now handle very large files.
3. This version is now Vista ready, beside Win2000 and XP ready.
4. The Automatic Import mode search for files in the /ImportQueue folder and its subfolders is now faster.
5. WAV, MP3, WMA, and DSS files imported thru the /ImportQueue folder (or one of its subfolders) can now have their original file name displayed in the Queue list's Author field.
6. The "position-in-file slider" can now be used during playback, and now when repositioned during stop it will restart playback.

Additional details are available in the "Read Me" link at "www.DigiTelSoftware.com/Software.htm".

To be removed from the Customer Update Notices mailing list, reply with subject "Remove".
