

## - New FtpMagic Version Available -

---

A software and documentation update, version 21.00.03 is available for FtpMagic. It is available at "[www.DigiTelSoftware.com](http://www.DigiTelSoftware.com)" as a Full Installation (if it's not already installed) and as an Upgrade Installation (if it's already installed). A new manual and quick-start guide are also available.

---

### The updates in this version include:

1. The "Automatic Sequencer" mode no longer makes it difficult to select another application.
2. The FTP upload process can now handle very large files.
3. Menu items are now re-enabled if the connection is lost during file uploading.
4. In "Manual Mode", after the "Test Connection" feature is used, the Automatic Sequencer mode will now not inadvertently engage.

Additional details are available in the "Read Me" link at "[www.DigiTelSoftware.com/Software.htm](http://www.DigiTelSoftware.com/Software.htm)".

To be removed from the Customer Update Notices mailing list, reply with subject "Remove".
