

Version 22.01.02

Customer Update Notices

Volume C1 Issue 7 April 9, 2008

- New DigiScribe Version Available - *“Speed Control Widened”*

A software and documentation update, version 22.01.02 is available for DigiScribe. It is available at “www.DigiTelSoftware.com” as a Full Installation (if it’s not already installed) and as an Upgrade Installation (if it’s already installed). A new Manual is also available.

The updates in this version include:

1. The range of the playback speed control has been considerably widened to better accommodate extremely slow and extremely fast authors.
2. The Available Work (Queue) and Completed Work lists now display the File Number that the new DigiTel version 20.04.00 provides.
3. The Position-In-File display showing an erroneous value after playing a file to its end and then rewinding, has been fixed.
4. The new File Number parameter that DigiTel provides is now displayed in the mini-player’s status bar. And the status bar now includes parameter labels for added clarity.
5. A few menu names and parameter labels have been refined for added clarity too.

Additional details are available in the “Read Me” link at “www.DigiTelSoftware.com/Software.htm”.
