Volume C2 Issue 1 January 29, 2009

- **New DigiTel Version** -
- **New Website Design Services** -
- **New FTP Folder Rentals** -

Happy New Year and Welcome to 2009! Thank you for helping to make DigiTel such a terrific success in 2008 and in the first month of this new year! We appreciate your business and the praise you've voiced about our products and our support. And we look forward to hearing from you again soon!

A new DigiTel Software Version is now available!

A new DigiTel version, 20.05.02, is available at www.DIGITELsoftware.com as an upgrade and as a full installation package. Upgrading to this new version is optional. It provides a new "Auto PIN" feature.

"Auto PIN" lets you assign a User's PIN to each Line (in the Toolbox's "Line" tab) for use when you have a Line dedicated to a user, or if you have all user's logging-in with a single PIN. By simply putting a User's PIN in the "Auto PIN" field for a Line, upon dialing DigiTel, the log-in prompt will be bypassed and the user will hear the "...press 2 to begin recording..." prompt.

Our new Website Design Services are now available!

One of the most effective ways for a Transcription Service to gain new clients is by advertising and promoting itself through their own website. And now we are available to create an affordable website just for you!

A one-page website is all you need to get started telling the world that you're open-for-business, that you provide transcription services, and how to contact you. A professional website helps give your business a competitive edge, and enables clients to find you when they're searching for help.

For just \$198, you can have your own custom website working for you to promote your business every minute of every day for 12 full months! Everything is included... your website's domain name, the design of your web page with the info you want it to show, and the hosting and maintenance of your website. Email Info@DIGITELsoftware.com for more information.

Our new FTP Folder Rentals are now available!

For just \$10 per month you can rent an FTP folder! FTP Folders are the best way to send work to remote transcriptionists, to send documents to your clients, and to send dictations to yourself while your traveling.

Now you can finally vacation without worrying about not being able to get your urgent work done! Email Info@DIGITELsoftware.com for more info.

DigiTel... the best call-in dictation system on the planet !
