

Customer Update Notice

Volume C3 Issue 2 February 25, 2010

New Versions of
- DigiTel & ReportGenie -
with Call-In Reviewer mode added !

Call-In Reviewer mode is an exciting new capability that gives your users immediate access to time-critical information !

And the new Dictation Backup feature lets you use your hard drive, or a network drive, or an external backup hard drive to backup all of your dictation files... minute-by-minute, automatically !

A new DigiTel Call-In Dictation System Software Version is available!
A **free** upgrade to ver. 20.07.02 can be downloaded at DigiTelSoftware.com.

This new software version lets you set up Reviewer users whom can call-in to select dictations to listen to right over the phone ! This gives your Reviewers the benefit of accessing time-critical information from any phone, any where, at any time, even before it has been transcribed ! A Reviewer can select any dictation to listen to by its File or Reference Number, or a Reviewer can be restricted to listen to only certain dictations by virtue of their Worktype and/or Department Number.

This new software version also includes a new automatic Dictation Backup feature, a Status Display of the Drive Space Free and the Hours of Dictation Available, and an Old Log Book Delete feature.

A new ReportGenie Report Generator Version is also available!
A **free** upgrade to ver. 23.00.01 can be downloaded at DigiTelSoftware.com. It is available to those who have already purchased the ReportGenie or to those evaluating it.

This new software version adds the ability to create reports of Reviewed dictations. It also adds an "Update Dictation Data" key to provide one-click importing of the latest dictation data.

If you would like assistance installing the updates, just let us know !
