

Customer Update Notice

Volume C3 Issue 3 April 8, 2010

New Versions of
- DigiTel -
with 64-Bit Compatibility added !

A new DigiTel Call-In Dictation System Software Version is available!

DigiTel can now be installed on 64-Bit and 32-Bit versions of Windows.

A new DigiTel Call-In Dictation System Software Version is available!

A **free** upgrade to version 20.07.03a is available at DigiTelSoftware.com.

If you've not upgraded in awhile, this new Upgrade version of 20.07.03a lets previous [DigiTel Systems](#) take advantage of the new features that are available. This, and future Upgrade versions can be used on either the 64-Bit or 32-Bit installation of [DigiTel](#).

As well, at www.DigiTelSoftware.com there are two new Full Installation versions of 20.07.03a, one for installation on a 32-Bit version of Windows (such as XP or Vista, as well as for Windows 2000, Server 2003, and 32-Bit Versions of Windows 7 and Server 2008), and the other for installation on a 64-Bit version of Windows (such as Windows 7 64-Bit and Server 2008 64-Bit).

Virtually all new pc's available are now 64-Bit pc's running the 64-Bit version of Windows 7. So if you need a new pc in the future, you can be confident to know that your [DigiTel System](#) is ready for it!

Compatible with all versions, 32-Bit and 64-Bit !
Windows 7, Vista, XP, 2000, Server 2003 and 2008

***If you would like assistance installing the update,
or installing on a new 64-Bit pc, just let us know !***
