A revolution in FTP file transfer!

FtpMagic QUICK START GUIDE

Version 21.00.03

Welcome to FtpMagic. The easiest way to transfer files to one or more FTP site folders. Simply place a file into one of FtpMagic's 25 "Intake" paths and they'll be automatically transferred to the FTP site associated with that path.

On the enclosed CD you will find an installation program called "FtpMagic Full Installation xxyzz.exe" (where xxyzz is the version, read as xx.yy.zz) and a product manual called "FtpMagic Manual.pdf".

Refer to the FtpMagic Manual for detailed information about installation, setup and use. If there is a newer version of the manual at "www.DigiTelSoftware.com" than the one on the Installation CD, **refer to the newer version.** If you need the free Adobe Reader program to open the manual, a link to it is available at "www.DigiTelSoftware.com".

Installation & Setup:

1. If "www.DigiTelSoftware.com" has a newer version of the "Full Installation" program than the Installation CD, **use the newer version.**
2. Run the "Full Installation" program and follow its on-screen instructions (**setup in default directory only, and answer "Yes" each time asked "do you want to keep this file?"**).
3. Run FtpMagic and click "**Show Site Settings**" and enter an FTP site's data. Then set the "**Intake Directory**" to the path where you want FtpMagic to look for files to send to that FTP site or folder.
4. Click "**Test Site Connection**" to validate the FTP data that you entered.
5. Click "**Show Control Panel**" and select "**Automatic Sequencer**" if you want FtpMagic to work automatically or select "**Manual Control**".
6. To send DigiTel dictation files to FtpMagic, in DigiTel's Toolbox, set a user's Dictation Destination path to the appropriate FtpMagic Intake folder.

License Key:

1. FtpMagic is automatically registered when it is installed on the same computer that DigiTel is installed on.
2. If FtpMagic is installed on another computer, a license key is available for purchase from your DigiTel reseller. To receive your FtpMagic License Key via Email, please email the "**Pop Number**" (found on the FtpMagic installation CD or provided to you by your FtpMagic reseller) **and** the "**Lock Number**" found in FtpMagic's File/Registration menu to Info@DigiTelSoftware.com.

Technical Support:

If you need technical support, please contact the place of purchase. Thank you.
