*The ultimate way to control  
any application via Foot Pedal !*

## **PedalMagic QUICK START GUIDE**

Version 05.07.00

**Congratulations on your purchase of PedalMagic.** PedalMagic is a powerful way to control any application via Foot Pedal. Simply set the desired Hot-Key sequence you want PedalMagic to send for each foot pedal press or foot pedal release. Then connect a foot pedal, open the application you want to control, and simply press a pedal to control it !

The PedalMagic Installation CD contains an installation program “PedalMagic Full Installation.exe” and a User Manual “PedalMagic Manual.pdf”.

**Please refer to the User Manual for detailed information about installation, setup and use.**

### **PedalMagic Quick Installation & Setup:**

1. Check <http://DigiTelSoftware.com> for a newer PedalMagic version than the version on the CD. It is recommended to install the newest version.
2. While you're on the website, take a moment to sign-up for Update Notices to receive an email when the next new version becomes available.
3. To install from the CD, browse to the PedalMagic folder and run the “PedalMagic Full Installation.exe” program.
4. To install from the website, click on SOFTWARE, and in the “Full Software Packages” section click on the newest PedalMagic version number.
5. Then follow the on-screen instructions, making sure to **only setup in the default directory, and if asked “do you want to keep this file” answer Yes.**
6. To place a PedalMagic shortcut onto your desktop, locate PedalMagic in All Programs, then right-click on PedalMagic and select “Send To - Desktop”.
7. Next, run PedalMagic. It will run in Evaluation mode for 30 days or until you enter a License Key into its Registration menu. To receive your PedalMagic License Key via email, please email the “Pop Number” found on the PedalMagic Installation CD's label or provided to you by your Pedal Magic reseller, along with the “Lock Number” displayed in PedalMagic's Registration menu to [Keys@DigiTelSoftware.com](mailto:Keys@DigiTelSoftware.com) .
8. Then click “**File/Open the Toolbox**” to configure PedalMagic as desired.

### **Technical Support:**

The User Manual describes PedalMagic's features and setup in detail. You may also find the information in the previous Update Notices that can be found at <http://www.DigiTelSoftware.com> informative. After referring to those resources, if you still have questions, please contact your PedalMagic reseller.
